

GRAND MULTI VIEW

(USB To VGA/ HDMI Monitor)

1. INTRODUCTION

The Grand Multi View enables you to add an additional monitor to your desktop or laptop through USB 2.0 without VGA card. With the unit, you can extend your display across two monitors, you can surf website on one monitor and word processing on the other. Easily connect up to 6 monitors to one PC through USB 2.0.

What's more, the mirror function allows you to display the same desktop image on two monitors. The Grand Multi View supports VGA and HDMI outputs, and the resolution supports up to 1600 x 1200 (32bit).

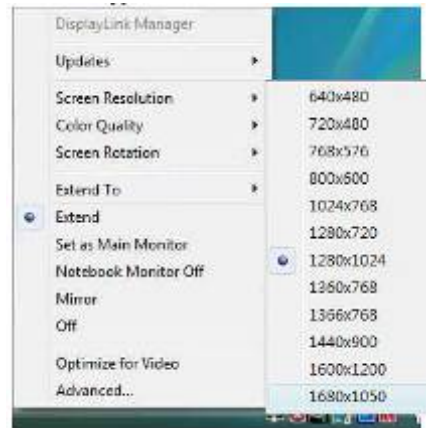

The Grand Multi View can be used for education (synchronous teaching-learning), and also can be used by art designer, architect or engineer (use second display for pallets or tools). The Grand Multi View is designed to enhance work efficiency with fewer errors.
